

Patch instructions

Set Archive Utility Preferences

1. Open Finder, and launch System/Library/CoreServices/Archive Utility.

2. Click Archive Utility – Preferences

3. Uncheck "Keep expanding if possible".

4. Download patch zip file from CETE website. And double click zip file, and it will create autoupdater.jar file. Place it into Applications/KansasAssessment/updates.

5. Launch KCA and all patches are automatically being installed.
